

Fondazione
LUIGI SACCONI

“FALL SEMINARS 2005”

Prof. Nigel J. ROBINSON

Newcastle University – UK

“Understanding how cells allocate metals using metal-sensors and metallochaperones”

Monday, September 19 - 6:00 pm

Prof. Kazuko MATSUMOTO

Waseda University – Tokyo, Japan

“Fluorescent lanthanide chelate labels for time-resolved detection of DNA and proteins”

Monday, October 10 - 6:00 pm

Cancelled

Prof. John L. MARKLEY

University of Wisconsin-Madison – USA

“Approaches to the automation of protein structure determination by NMR spectroscopy”

Tuesday, October 18 - 6:00 pm

Prof. Carlos F. BARBAS III

The Scripps Research Institute - La Jolla, USA

“Polydactyl Zinc Finger Transcription Factors: Developing Strategies to Control and Discover Genes”

Monday, October 24 - 6:00 pm

New

Polo Scientifico Università di Firenze, Sesto Fiorentino

Fondazione Luigi Sacconi – Via Luigi Sacconi, 6 tel 055-4574274
