

We are pleased to announce that the following Symposium will be held at the Magnetic Resonance Center of Florence University:

“Symposium on the Molecular Basis of ALS”

5 February 2009

9.30 Chair Prof. Ivano Bertini
introduction

10.00 Prof. Stefan Marklund
Umeå Universitet, Sweden
“Soluble Misfolded SOD1 and ALS”

10.45 Break

11.15 Prof. Mikael Oliveberg
Stockholm University, Sweden
“Does ALS arise from a compromise between functional and Structural Optimisation?”

12.00 Prof. Lucia Banci
University of Florence
“SOD: the molecular mechanisms for amyloid formations”

An up-to-date list of seminars is at:
